VEHICLE MOUNTING SOLUTIONS

# MAMBA MOUNT

Jotto Desk is upgrading and simplifying your on-duty experience with the Mamba Mount, a console side mount designed to work in each zone; Store & Drive, Park & Work, and Tactically Safe. The Mamba Mount's 12" Extruded Motion Arm smoothly rotates from the driver to the passenger side with minimal force, no levers or brackets needed. You can quickly move and reset the Mamba Mount from the home position to a comfortable working position. Pull the rear Indexing Plunger to release the laptop and slide it forward to a working position. When finished, simply reverse the process, pull the front indexing plunger and slide the laptop back to the home or store position. At full extension, the desktop tilts and swivels for the optimal working position. The Mamba Mount easily attaches to the majority of Jotto Desk Contour Consoles and any other standard console with side mount fittings and fits all Jotto Desk A-MOD Desktops.

**425-0150 MAMBA MOUNT (BASE ONLY)**

Jotto Desk® has long focused on the three main positions needed by law enforcement and the Mamba Mount makes the utilization much easier. The easier it is, the more often they will be utilized.

## STORE & DRIVE

The “go to” spot where the laptop is positioned while driving the vehicle. The screen is able to be viewed and the keyboard interacted with for those hot button responses or running a license plate.

## PARK & WORK

Either from the driver or passenger seat. The Mamba Mount allows the laptop to be positioned ergonomically so that the officer or deputy can type as needed. As the patrol vehicle is their mobile office, comfort matters.

## TACTICALLY SAFE

Allows the laptop to be positioned at the passenger door threshold. This provides the ability for the officer to be standing outside the vehicle with the door open allowing better peripheral vision and egress opportunity in the case of a rear-end collision.
