**JOTTO DESK**®
VEHICLE MOUNTING SOLUTIONS

Installation Instructions

If you have questions or need further assistance please call Technical Support: 1.877.455.6886

1. Remove front trim around each seat rail as it will not be reused.

2. Loosen passenger side rear bolt.

3. Remove (2) front seat bolts and (1) rear bolt closest to the transmission hump.

4. Install HD Base by tilting the seat back and to the side ensuring all mounting point are aligned to reinstall OEM seat bolts.

5. Attach and tighten all hardware.

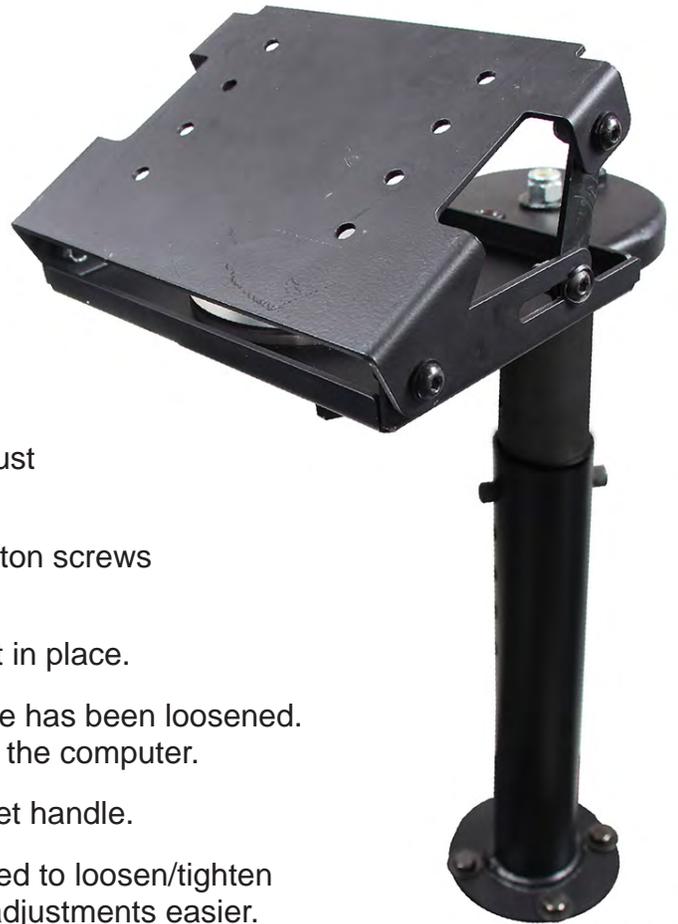

6. Use a ½" socket to secure the upright stand assembly to the base with the provided (4) 5/16-18 bolts and washers.

Note: the height adjustment bolts should be positioned bumper to bumper when properly installed

1. Adjust the height of the tube assembly as needed by removing the (2) 5/16-18 socket head cap screws with the provided 1/4" hex key.

2. Re-tighten once desired height is reached.

3. Open the tilt mechanism fully to allow the attachment of your docking station and/or desktop.

4. Once the desktop is secured to the tilt plate, you can adjust to find the optimal angle.

5. Set the tilt angle by tightening (6) 1/4-20 socket head button screws with a 5/32 hex key and a 7/16 wrench.

6. Rotate the arm, tighten the ratchet handle to lock the unit in place.

7. The horizontal arm can rotate 90° once the ratchet handle has been loosened. This will allow the driver to choose the best placement of the computer.

8. Once desired position has been reached, retighten ratchet handle.

9. The desktop/computer can be rotated 75° without the need to loosen/tighten anything. The design utilizes friction discs to make final adjustments easier.

A Jotto Desk Laptop Mount featuring the A-MOD Desktop is the ultimate desktop solution to secure a laptop computer in a mobile environment. The fully adjustable A-MOD Desktop features a lightweight, yet rugged lockable design with superior ergonomics.
