

WHEN YOU'RE OFF DUTY
THE **DEFEND**  **IR** IS ON

U.S. Patent No. 11,745,699

DEFEND IR

You take every available precaution to secure your patrol vehicle; firearms in the gun rack, locking equipment and doors. The inconvenient truth is that the criminal element has time on their side to bypass these precautions.

Jotto Desk is excited to introduce the Defend IR Security System. The first Security Solution against patrol vehicle break-ins. The Defend IR Monitors the interior of your vehicle utilizing an infrared sensor when armed. When a change is detected, the Defend IR activates the lights and siren of the patrol vehicle, alerting everyone nearby and scaring off a potential thief.

CHECK IT OUT AT JOTTOPUBLICSAFETY.COM

ARMED

The Defend IR automatically arms upon the ignition being turned off and not seeing movement for an adjustable period of time. Once armed, red/blue LED give you a visual indication and the Defend IR monitors your patrol vehicle utilizing an infrared sensor.

The Defend IR is smart security hardware that does not require officer interaction. When you start your vehicle, the Defend IR disarms. After your engine is off, the Defend IR begins the arming process.

DISARMING (IGNITION)

Upon returning to your vehicle, simply start your vehicle within the time window to disable the Defend IR.

DISABLED

When you need to disable the Defend IR, simply hold the power button for three seconds. You will hear six beeps and the amber LED will illuminate. Perfect for when your patrol vehicle is at the dealership, radio shop or fleet department.

ALARM

Once the Defend IR is tripped, a countdown begins (choose 10, 20, 30 or 40 seconds). The Defend IR will then activate your lights and siren, alerting the officer and scaring off the potential criminal. The siren will sound for an adjustable period of time, while the lights will stay on until disarmed. In the case of an accidental alarm trip, simply start your vehicle and the Defend IR will disarm.
