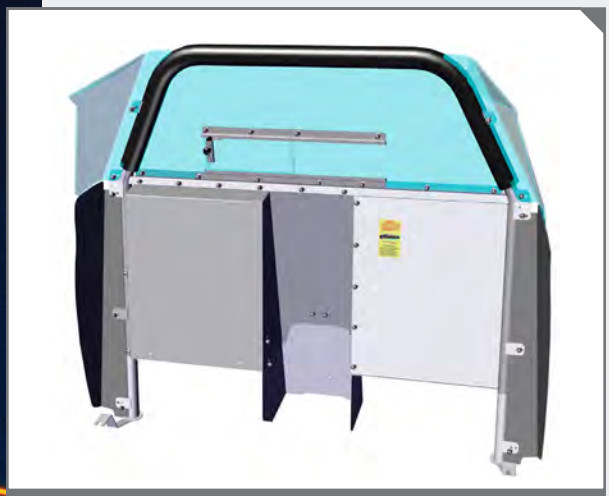
VEHICLE PARTITIONS

Keep your officers and prisoners safe during transport with a Jotto Desk vehicle partition. Our system allows you to configure the partition to maximize the officer's workspace and our No Holes drilled installation is fast and easy.



425-1657

SPACE CREATOR BDRH VEHICLE PARTITIONS (BIDIRECTIONAL RECESSED HOUSING)

425-1675

Space Creator Vehicle Partitions transform previously unusable space to create additional leg room behind the front passenger seat. The BDRH creates unparalleled leg room for even large prisoners while maintaining excellent use of officer seat for complete comfort.
(US Patent No. 8,690,216)

UDRH VEHICLE PARTITION (UNIDIRECTIONAL RECESSED HOUSING)

425-1677

425-1678

HSEP (HIGH SECURITY EXTENSION PANEL)

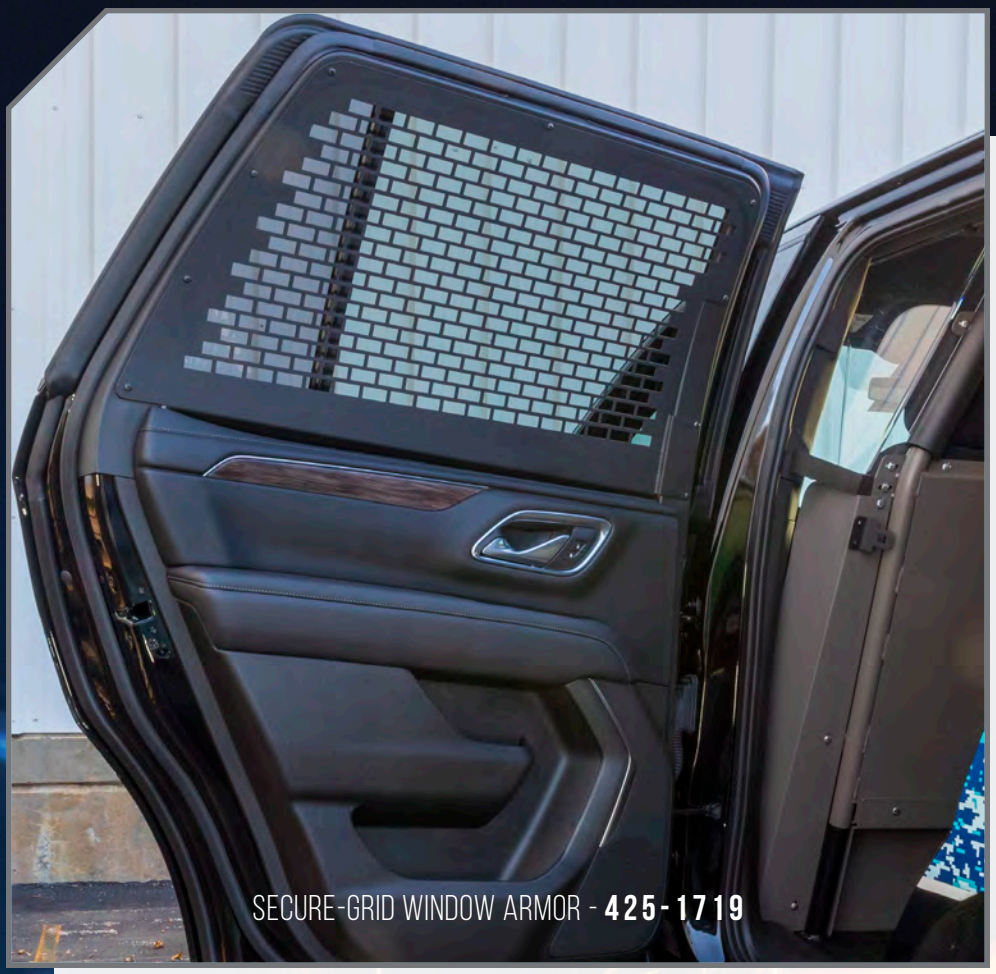
Enhance partition security by preventing rear passengers from reaching into the front of the vehicle under seats with a two-piece, steel High Security Extension Panel.

425-1674 (FITS BDRH)

425-1679 (FITS UDRH)

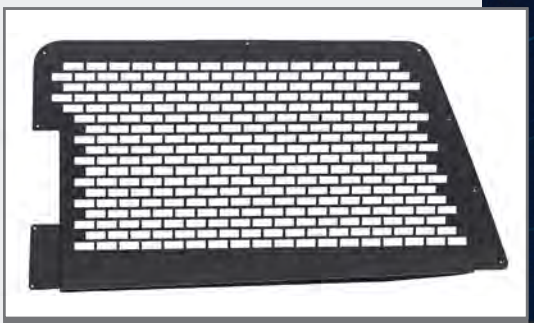
WINDOW ARMOR & DOOR PANELS

Protect your vehicles while transporting prisoners with Jotto Desk's line of Window Armor and Door Panels. The Window Armor is easy to install, prevents side windows from being kicked out and nobody can reach in or out of the prisoner compartment. Door Panels protect door mechanisms, prohibit contraband from being hidden, and are very easy to clean.

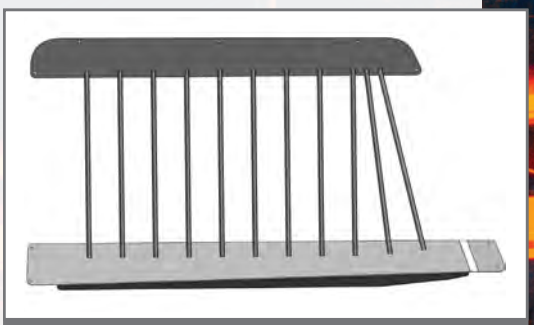


SECURE-GRID WINDOW ARMOR - **425-1719**

VERTICAL WINDOW ARMOR & DOOR PANEL PACKAGE - **425-1763**



SECURE GRID WINDOW ARMOR - **425-1719**

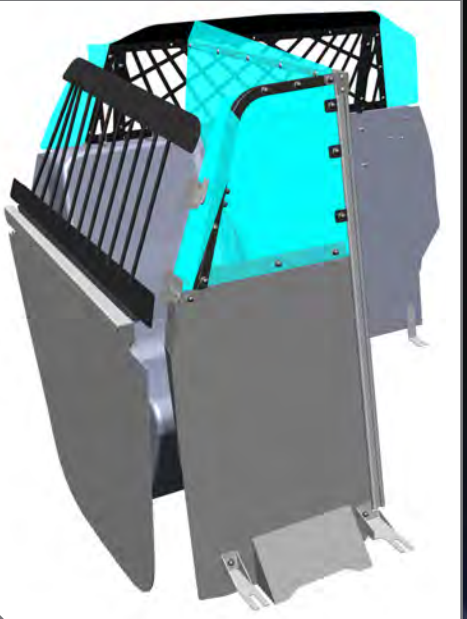


VERTICAL WINDOW ARMOR - **425-1718**

ABS DOOR PANELS - **425-1980**

SINGLE CELL

425-1711

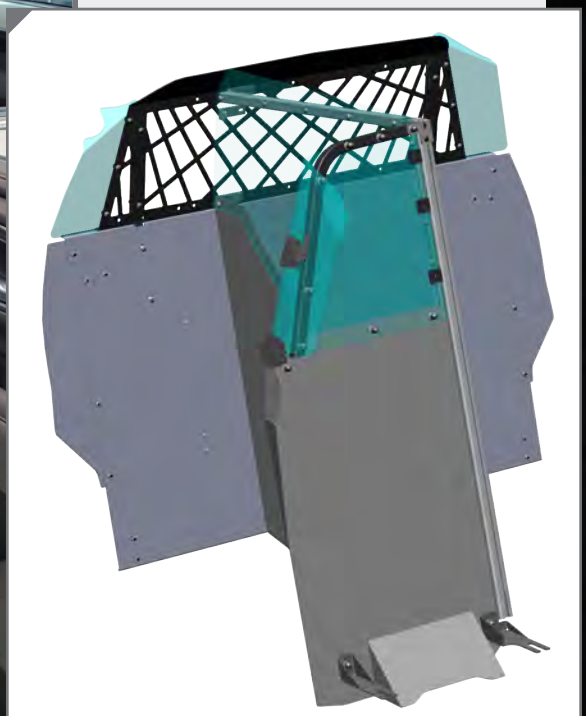


The Jotto Desk Single Cell includes the Front Divider, Center Divider, Rear Cargo Barrier (CB4), Passenger Side Window Armor, Passenger Side Door Panels, and ABS Seat Cover. Jotto Desk realized the extreme challenge facing agencies concerning the rear seat area of SUVs. The bottom 2/3 of the Front Divider is powder-coated steel with a built-in HSEP (High Security Extension Panel) for added prisoner foot room. We wanted to give the officer more observation possibilities of the prisoner, so the center divider has been updated. The upper polycarbonate portion sweeps down to allow for prisoner viewing/interaction, but does not diminish the driver's view out the rearview mirror. In fact, the visibility for an officer is nothing short of amazing.

Keep your cargo where it belongs with the included the CB4 Prisoner Cargo Barrier. This design secures behind the second row of seats in the (2021+) Chevy Tahoe PPV utilizing OEM mounting points. No cutting of trim is required and very minimal drilling is necessary. NOTE: CB4 Only Comes With Secure Grid

SINGLE CELL LITE

The Jotto Desk® Single Cell includes the Front Divider, Center Divider and SCA Compliant Rear Cargo Barrier (CB4). The bottom 2/3 of the front divider and center divider is powder coated steel with a HSEP for added prisoner foot room. We wanted to give officers a greater viewing angle of prisoners being transported, so the design was tweaked to increase the poly and reduce the steel.



475-1712

ABS SEATING

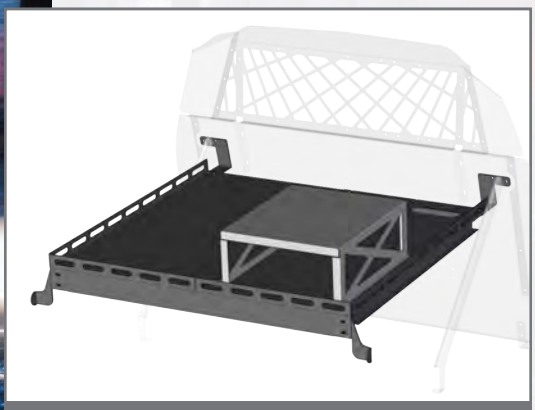
Jotto Desk realized the extreme challenge facing agencies in regard to the rear seat area of SUVs. The Jotto Desk solution, provides a complete SUV prisoner transport solution. The Replacement ABS Bio-Seat comes with all the hardware need to remove the OEM seat and replace with a biohazard and contraband control system for easier transportation and clean up. Along with replacing the OEM seat, Jotto Desk is offering a Door Side (DS) Seat Belt System.

475-1743

CARGO COVER/ EQUIPMENT TRAY

Introducing the Jotto Desk® 2021+ Chevy Tahoe Cargo Cover. Designed to provide a solid horizontal divider in the vehicle. The upper/top section creates an area for mounting expensive communication, in-car video, and lighting equipment that uninstalls easily for service. Retaining the lower section for the individual officer or deputy's day-to-day gear. Whether a Rubbermaid tote with crime scene tape, rubber gloves, and drug testing supplies or more mission-critical items like a sniper rifle, Level IIIA SWAT vest, and Kevlar Helmet. The Jotto Desk® 2021+ Chevy Tahoe Cargo Cover offers protection, first by obscuring from observation what is stored or housed underneath and secondly by relying on the strength of 14 gauge steel to keep anyone from stealing what is stored beneath the Cargo Cover.

425-1850 (ATTACHES TO SRS)



425-1851 (ATTACHES TO CB4)

CARGO BARRIERS

475-1682

475-1709

Separate the prisoner and the rear cargo areas securely with Jotto Desk's line of Cargo Barriers. Keep prisoners in their area and in case of a crash, keep your cargo where it belongs with the CB4 Prisoner Cargo Barrier. This design secures behind the second row of seats utilizing OEM mounting points, installs quickly and requires no vehicle modifications.

CARGO BARRIER EQUIPMENT TRAY

The Cargo Barrier Equipment Tray provides a secure location to mount communications, lighting, and other equipment in the Tahoe cargo area. The Equipment Tray has been designed to mount directly to Jotto Desk Cargo Barriers (475-1682 & 475-1709) and the Cargo Barrier has been manufactured with PEM hardware to make installation a breeze. The steel construction of the equipment tray – helps protect the mounted equipment from damage due to unsecured items flying about when the vehicle is in motion. This solution makes initial upfits easy, as equipment can be bench mounted to the Removable Shelf and then mounted to the Equipment Tray. When servicing the mounted equipment – instead of doing everything in the confines of the cargo area, simply pull the Removable Shelf from the Equipment Tray and take into an air-conditioned room for repairs/replacement.

DEFEND IR

You take every available precaution to secure your patrol vehicle; firearms in the gun rack, locking equipment and doors. The inconvenient truth is that the criminal element has time on their side to bypass these precautions.

Jotto Desk is excited to introduce the Defend IR Security System. The first Security Solution against patrol vehicle break-ins. The Defend IR Monitors the interior of your vehicle utilizing an infrared sensor when armed. When a change is detected, the Defend IR activates the lights and siren of the patrol vehicle, alerting everyone nearby and scaring off a potential thief.
